**Re: REACH / RoHS**

Dear Bryan Cowan

I confirm that the following grades comply with EU Regulation 2006/1907/EC (REACH). I also confirm that the following grades do not contain any substances classified as Substances of Very High Concern and listed on the Candidate list at a concentration greater than 0.1%.

XT80165 (replacing VT662 the experimental reference will become VT662/1)  
XT79689 (replacing VT744/5 the experimental reference will become VT744/6)  
VT717/2 (replacing VT717/1 the experimental reference will become VT717/2)  
XT79860 (replacing VT735 the experimental reference will become VT735/1)  
XG80395  
XG80598  
VN50351

Note: the experimental references will change to sales references on completion of sufficient manufactures to generate a sales specification and reviewed production control limits.

I furthermore confirm that the above grades comply with EU Directive 2011/65/EC (RoHS) and that no exemptions are utilized.

Yours sincerely,

**Pat Mullen** MSc  
Regulatory Affairs Manager
